

Study English. Work in Canada. Build your future.

Students can study at English Path to improve their English and then continue their stay in Canada by working at a camp either in Ontario or Quebec.

Join an exciting opportunity to improve your English skills and gain valuable international work experience in Ontario, Canada. Participants begin with 4-12 weeks of English study, designed to build confidence for real-world communication, followed by a 10–12* week paid work placement at a summer camp.

After completing the study portion (before May or June), participants transition into their work term, starting in May or June and running through mid-August or mid-September. Camp positions include kitchen, housekeeping, and maintenance roles, offering hands-on experience in a supportive, English-speaking environment.

This program is ideal for candidates looking to strengthen their resumes, develop workplace skills, and practice English daily in an authentic setting—all while experiencing Canadian culture and life in Ontario.

*less work-weeks is possible.
