

# Short Term Professional: English for Business

## FEATURE

## BENEFIT

### English for Business programme starting every week

The English for Business course at English Path is ideal for experienced professionals. You would typically have already started your career and be looking to become more confident with the practical English you require for the workplace and business situations.

### The course develops your English and Business skills:

During your English for Business course at English Path, you will develop your English and Business skills; such as giving presentations, writing and understanding emails, participating in reviews, negotiating, telephoning and participating in meetings and discussions. Your English Path teachers, who have a background knowledge of the subject, will ensure you get a 'real-life' experience by using authentic Business English materials from the internet, newspapers and other sources.

- have increased confidence and fluency and be better able to communicate effectively in a range of business contexts
- be able to approach negotiations diplomatically
- have improved your networking skills
- have learnt functional language appropriate to a variety of different business situations
- have learnt vocabulary specific to everyday business tasks and contexts
- be able to express yourself professionally and confidently using correct intonation and effective language and techniques
- have improved your listening skills and be better able to participate in business meetings and extract important information as well as be able to follow and participate in discussion more confidently.

### English Path Course Certificate

- You will be provided with a Certificate at the end of your course stating your English level achieved

### Programme offered in the following destinations:

- Canary Wharf 30+
