

EP Young Learners

2026 - 27 Year-round & Summer Programmes

Inspiring Language & Life Skills for Young Global Citizens

Age range 8 - 17

An education that goes beyond the classroom

At EP Young Learners, we believe a summer abroad should do more than fill the holidays. It should move a young person forward. Our programmes combine a structured, CEFR-aligned language curriculum with a carefully planned cultural programme, delivered on distinguished campuses in some of the world's great cities.

Students aged 8-17 learn in an international community of peers from more than 50 countries. They are taught by qualified teachers who specialise in young learners, and supported by 24/7 pastoral care that follows British Council global standards. EP Young Learners is part of English Path, a trusted global education community with campuses in Australia, Canada, France, Germany, Ireland, Malta, Saudi Arabia, the UAE and the UK.

Please note that younger learners (aged 8 - 11, or 8 - 12 in Dubai) normally travel as part of a closed group. Age ranges and booking options vary by destination; see the EP Young Learners summary.

Why choose EP's Young Learner programmes?

The EP Young Learners programme offers an immersive, inspiring environment where students grow in confidence and fluency, developing language skills and life skills that last a lifetime. Students can study English, French (in Paris) or German (in Berlin). We know these years are full of learning, curiosity and growth, so our courses are carefully planned to include fun activities, useful skills and creative projects.

MEASURABLE PROGRESS IN REAL LANGUAGE SKILLS

Every student is placed by CEFR level and follows a structured curriculum built for genuine fluency and the confidence to hold a conversation, not just pass a grammar test. Progress is recognised with an end-of-course certificate.

HIGH-QUALITY TEACHING, INSPIRING LEARNING

Our experienced teachers bring lessons to life through engaging, interactive activities designed for young learners. Students build confidence in English while developing their speaking, listening, reading and writing skills in a supportive and encouraging environment.

SAFEGUARDING WITHOUT COMPROMISE

Trained safeguarding staff are in place across our schools, supported by clear supervision arrangements and appropriate staff-to-student ratios during activities and excursions. Our safeguarding policies reflect relevant local requirements and recognised safeguarding practice. Students wear EP lanyards and IDs with key emergency contact information, and our teams provide individual pastoral support throughout the programme, from arrival to departure.

A TRULY INTERNATIONAL COMMUNITY

Students connect with peers from around the world, building friendships, sharing cultures and gaining the confidence to use their language skills naturally in everyday situations.

A CULTURAL CURRICULUM, THOUGHTFULLY CURATED

Excursions and activities are an integral part of the Young Learner experience. Each is carefully planned, risk-assessed and appropriately supervised, giving students the opportunity to explore their destination, experience local culture and bring their learning to life beyond the classroom.

ACCOMMODATION SELECTED TO OUR STANDARD

Every residence, hostel and host family is personally inspected by our team for safety, cleanliness and comfort, because where a child sleeps matters as much as where they study.

Enhanced learning opportunities to inspire the next generation

SKILL BUILDING	Learn useful life skills such as speaking clearly, solving problems and managing your time. Get ready for your future studies and work.
LEADERSHIP AND COMMUNICATION	Improve your speaking and teamwork skills in fun group activities. Learn how to work well with others and grow in confidence.
GLOBAL PERSPECTIVES	Discover new cultures, ideas and traditions in our international classes.
CREATIVE EXPRESSION	Use your imagination through art and creative projects, and find new ways to express your ideas.
CELEBRATING ACHIEVEMENTS	Show your progress in weekly group celebrations and feel proud of what you have learned. Embrace this opportunity to learn, grow, and shine. Enrol in our exciting courses today and embark on a journey of discovery and transformation. Your future starts here! Let's turn your potential into excellence!

Student safety

At EP Young Learners, your child's safety and wellbeing are at the heart of everything we do. Our safeguarding policies and procedures apply to all staff and partner organisations and are regularly reviewed to reflect relevant legislation, recognised safeguarding practice, and the requirements of the countries in which we operate. We are committed to providing a safe, supportive environment for every young learner and take any safeguarding concern seriously.

OUR SAFEGUARDING STRUCTURE

Safeguarding is built into every part of our programme. Our structure includes experienced global leadership, with senior team members trained in safeguarding and designated safeguarding responsibilities. Each location has trained staff with clear responsibility for safeguarding, supported by local and global management. Staff and relevant partners undergo appropriate background and suitability checks in accordance with local requirements and receive safeguarding training relevant to their roles and responsibilities.

MEDICAL CARE

If a student becomes unwell, our team will make sure they receive appropriate medical attention and support. Where medical care is required, a member of staff or the student's group leader will accompany them to an appropriate local medical facility, and parents or guardians will be kept informed. All students are required to provide completed medical and consent information before arrival so that we can respond appropriately to their individual needs. Where treatment results in an insurance claim, our team will assist with the relevant documentation and information where possible.

SUPERVISED TRANSFERS

For added safety, all student transfers must be arranged through EP Young Learners, unless a parent or legal guardian personally drops the student at the campus or school. This makes sure every arrival and departure is supervised and secure.

DAILY SAFEGUARDING ON CAMPUS

Code of Conduct:	We keep clear expectations for respectful behaviour and professional boundaries.
Transparent Reporting:	Any safeguarding concern can be raised at any time, through timely and confidential reporting processes.
Safe Activities:	All excursions and activities are risk-assessed, supervised, and designed for age-appropriate engagement.

Parents and group leaders receive the 24/7 emergency phone number before arrival. Students are briefed on personal safety, local laws and cultural etiquette at the start of their programme. Our supervision ratios follow international best practice.

For residential programmes, our team lives in the same accommodation as students, ensuring 24/7 availability. Curfew times are strictly enforced, and all residences have controlled access and security monitoring.

VISIBLE AND IDENTIFIABLE

To help keep students safe and easily identifiable, all EP Young Learners wear an EP lanyard and ID containing key emergency contact information. Students are expected to keep these with them throughout the programme, including during activities and excursions, so they can be quickly identified and supported if needed.

WHY IT MATTERS

Exceptional experiences are only possible in an environment of complete trust. We hold ourselves to the highest safeguarding standards so that parents can have confidence, and students can give their full attention to learning, exploring and growing.

The academic programme

Our curriculum is designed to build genuine command of the language, not just classroom terms. Classes are small and interactive, taught by experienced teachers who specialise in young learners, and aligned with the CEFR framework from A1 (beginner) to C1 (advanced). Every student takes a placement test before arrival, so they study at the right level from the first lesson, and every student leaves with an end-of-course certificate.

Option	What students do
General English	Build speaking, listening, reading and writing skills through interactive lessons, group projects, and real-world tasks.
French (Paris)	Full French immersion at our Paris campus. All levels from beginner.
German (Berlin)	Learn German in the city that shaped modern Europe. All levels from beginner.
Be Your Own Boss (13+)	Discover business and leadership. Work on real projects, learn how companies operate, and build skills for the future.
Performing Arts (Humanities - Brisbane)	Join fun workshops in drama and art. Practise speaking English, build confidence and enjoy acting and performing with others.

Every week includes 15 hours of lessons, five half-day cultural activities, one full-day excursion on Saturday and a programme of evening events. Lessons may run in the morning or the afternoon, depending on the campus, the season and the weather. A full timetable for each campus is shown on the destination pages.

Learning inside and outside the classroom

At English Path, we help every student reach their goals; in language, in skills, in confidence with people from other cultures, and in learning how to learn.

For our young learners, we do this through a clear lesson structure and a set of teaching practices we follow everywhere.

LESSON STRUCTURE

Students have three hours of class each day, split into two 90-minute lessons.

The first 90 minutes use an EP workbook built around the local city, so students learn the language and the culture together.

The second 90 minutes are innovation work. Students work as a team on a weekly project and present it, building language alongside skills such as collaboration, critical thinking, leadership and self-direction.

We write our own materials, and teachers adapt them to suit the students in front of them.

TEACHING AND LEARNING BEST PRACTICES

Our teaching and our materials work together, so that students:

- know what they are learning, and why
- know how to use it in real life, outside the classroom
- take ownership of their own learning
- produce work, receive feedback and improve
- build study skills they can keep using long after their course ends
- learn about the local culture and about each other's cultures.

The result is a classroom and an activity programme that support each other, rather than running side by side.

CLASS PLACEMENT

Every student takes an online placement test before arrival. We use the results, along with the student's age and nationality, to place them in the right class.

LEARNING OUTCOMES

By the end of the course, students will be better able to:

Think critically and check information. Tell facts from opinions, ask good questions, and look carefully at what they read online.

Communicate clearly in different situations. Share an opinion, weigh both sides, discuss difficult topics, and switch between formal and casual language.

Work together, solve problems and pitch ideas. Work well in a team, handle disagreement, create something with others, and present it with confidence.

Talk about life, culture and interests. Describe hobbies, food, travel, art and culture, and hold an everyday conversation.

Manage goals, time and independent study. Set personal goals, organise study time, use self-study techniques, and build strong relationships with people from different backgrounds.

Our destinations for individuals & groups

DUBAI • DUBLIN • LONDON
MIDDLESEX • MALTA • PARIS

These five destinations welcome both individuals and groups. A closed group can travel together with its own leader, or a young person can come alone and join an international class. Individual students and groups share the same campus, residence and activity programme, so students meet people from across the world with the support of a group leader or the EP team.

Five destinations, five very different experiences. Dubai and its modern skyline. A university campus in Dublin. A green campus in London Middlesex, twenty minutes from the centre. Malta, where the sea is never far away. Paris, where students can study in French as well as English.
