Sessions are designed to be engaging, challenging and rewarding. Players will:

Develop key technical skills like passing, shooting, dribbling, and ball control

Improve tactical understanding of formations and team play

Build confidence through match scenarios and small-sided games

Work with peers from around the world in a professional coaching environment

Training takes place Monday to Friday, 2 hours per day.

Football English Language Classes

IN THE CLASSROOM

Each afternoon, students enjoy two hours of dynamic English lessons at EP Stratford. To keep things fresh and exciting, we bring their passion into the classroom by building every session entirely around the world of football, making language learning genuinely fun and relevant.

Students will explore English through:

Football vocabulary, tactics, and commentary language

Analysis of famous moments and matches in football history

Physical and fitness terminology used in professional coaching

Discussion, debate, and collaborative team activities

FINAL PRESENTATION

Working in mini-groups throughout the week, students build towards a final presentation on a football topic of their own choosing. This project-based goal fosters independent thinking, encourages research skills in English, and gives every student something to be proud of at the end of the course. Topics can range from a favourite player or team to a tactical breakdown or a moment in football history.

Accommodation: The Homestay Experience
