Introduction

English Path Dublin is committed to environmental responsibility. This policy outlines our strategy for promoting sustainability through practical actions and staff and student engagement. By reducing waste, conserving resources, and embedding awareness, we aim to foster a greener educational environment and contribute meaningfully to local and global ecological well-being.

changes lives through education.*

Purpose

At English Path Dublin, we are committed to minimizing our environmental impact and promoting sustainability within our school community. We believe that by working together, we can create a greener and healthier learning environment for everyone.

Our Aims:

- To reduce our consumption of energy, water, and resources.
- To minimize waste and maximize recycling.
- To raise awareness and educate our students and staff about environmental issues and sustainable practices.
- To encourage environmentally responsible behaviour within our school and beyond.

Our Actions:

Energy:

- We promote energy conservation by turning off lights when rooms are not in use and encouraging the use of natural light whenever possible.
- We ensure that electrical equipment is switched off when not in use.
- We explore opportunities to improve energy efficiency through upgrades and maintenance.

Water:

- We encourage responsible water usage by fixing leaks promptly and promoting mindful water consumption in restrooms and other areas.
- We will consider installing water-saving devices where appropriate.

and innovative language school that
changes lives through education.*

Waste:

- We implement a comprehensive recycling program, providing clearly labelled bins for different materials (paper, plastic, cans, etc.) and providing for the recycling material to be collected appropriately.
- We strive to reduce waste by encouraging double-sided printing and reducing paper usage.
- We promote the use of reusable containers and water bottles.

Resources:

- We prioritize the purchase of environmentally friendly and sustainable products where possible.
- We encourage the use of digital resources to reduce paper consumption.

Education and Awareness:

- We integrate environmental themes into our curriculum where appropriate.
- We will organize events and activities to raise awareness about environmental issues and promote sustainable practices.
- We will encourage student participation in environmental initiatives.

Review:

This policy will be reviewed and updated every two years to ensure its effectiveness and relevance. We encourage feedback from students, staff, and the wider community on how we can improve our environmental performance.

This policy is intended to be a living document and will be adapted and improved as needed. We believe that small changes can make a big difference, and we are committed to playing our part in creating a sustainable future.
